copy —
give the form and brevity of this reply,
in leaving a UN meeting with somewhat
ed attention. As you have guessed, I
particularly busy — not with
one in Turkey, but rather more —
local subjects of a political, admini-
trative, or policy nature, on the agenda
— 25th General Assembly.

I am also under a heavy load
like you, and copies of letters from HWS
is and to me, he mentions his
me letter to me, he mentions his
about not having heard from
my and his suspicion that more is
involved in your dilemma than Jimmy
& Illness (needless to say, I am
wired by his discharge from hospital and
the re-admission is very brief).
have not replied at all to HWS
or the original advisors letter
I expect you do much — but his
lets of mainly illegible papers
true & care.

So, I have heard from HWS —
outstanding thing that I am
seeing completely. He sent me

(By expensive courier) a heavy copy of a
long document that is in the volume
and that I wrote him in June to say
I did not want and did not wish to
spend money for. In his letter, he
implies that I have a moral or
material obligation to pay help of
the \$7.70 if cost him, despite
my letter saying I did not consent
— unless he actually mentions,

I don't think his real purpose is to
mold me for \$4.95 but to present me
with the necessity to reply. My
failure to do so will indicate to
him what he has not been quite
sure of since my Dallas visit —
that I am, as to speak, through
with him.

Worry, dear, I hope very much
this finds you well and all your
concerns about Jimmy be finally
over. Much love,
Alyssa

(Again, pardon the impudence
of this letter)
