BOARD OF DIRECTORS

MEMBERS

The Committee's work is premised on the following assumptions:

The Committee shall currently concentrate on the Kennedy-King-Kennedy assassinations, leaving open its options, however, on several other mysterious deaths.

As to the assassination of President Kennedy, there was a conspiracy in Dallas; and the most pressing problem at the moment is to convince a Congressional Committee to reopen the "case."

As to the King killing, James Earl Ray appears to be either a hired gunman or a "patsy," all of which means a conspiracy. In any event, he is entitled to a public trial.

As to the Robert Kennedy killing, there are footprints which point toward conspiracy; however, these footprints appear to have been ignored or buried by law enforcement; hence, we shall investigate them.

As to a possible inter-connection between the three slayings, the most that can be said at present is that there are a number of parallels in the case which might indicate a common modus operandi which normally would be subject to official scrutiny.

The Committee will cooperate fully with all law enforcement and looks forward to the day when a proper investigation will be made by the authorities. Otherwise, no liberal candidate for President is likely to live long enough to assume office after nomination and election.
