Dear Mary,

What is this "blob"? From outer space? An invasion-of-the-bodysnatchers? (One of my favorite films.) Please let me know what information there is on the blob and what you think about it.

Equally important, what do you think of Watergate? I have heard from various acquaintances and from strangers, to the effect that they can finally concede that the JFK assassination could have been the work of a conspiracy, and also that they wonder if the same conspiracy did not fashion the Watergate scandals as well as the assassination.

I hope that you did not mind my referring Leo Sauvage to you, some months ago. I know that he appreciated the help you gave him.

We have been out of touch for much too long, Mary. On my part, the reason is partially the fact that I was quite ill last summer and spent time in the hospital rather than in my very expensive rented house on Fire Island, which had to stay unused.

However, all's well that ends well, as the saying goes. Mimi has become the Marlene Dietrich of cats, a real beauty and a feline athlete as well as very affectionate and talkative.

How are you, and how is your family? Do try to write soon. Meanwhile, much affection,

Sincerely,

*J. F. Kennedy*
