Senator Thomas Kuchel,  
U.S. Senate  
Washington, D.C.

16th Octo.'66

Dear Senator Kuchel,

I cannot urge you too strongly to acquaint yourself with the evidence surrounding the assassination of President Kennedy. That evidence is contained in the 26 volumes of Hearings, Testimony and Exhibits issued by the Warren Commission, and is not reflected in the conclusions of the Commission.

I realize that someone as busy as you are cannot, perhaps, take the time to read or even peruse the vast amount of material contained in those volumes but I can assure that, having carefully and thoroughly studied them for 2 years, I am convinced, beyond a doubt, that the truth has not been told and that the sooner action is taken to uncover the truth, the healthier this nation will be.

Very sincerely yours,

.....
