

Mrs. Field Friday 1pm 9 July 1965 (Telephone)

She has negative of the Troosman picture.
Something seems wrong with the hedge - in later pictures the hedge is pictured in one solid mass.

The 2 men who did all work on pictures (VCHA & "Ray") got negative (3rd negative) for UPI.

I sure that official says if not before he now knows about the men seen in the embargo t. VCHA has totally committed and impulsive - tends go all-out & tell too many people - He contacted Jones Harris V Salandra and other people -

New development = Jim Koethe, strangled to death, first in Ruby's apt - look paper Warr Rest CE of newspaper lying in floor - Vol 25 completely different from NR photo -

Significant - may be markings in pencil on Krumm picture.

WCHA wrote J. Ball calling attention testimony suggesting there were men behind concrete wall - Ball replied saying, no such evidence, no men behind the structure, citing testimony of Leo Bauers - (RR towerman who reported cars & goldwater stickers, one man using telephone-like instrument).
