Dear Mrs. Field,

Our talk last night was very heartening to me. Of all the people I have met or been in touch with since November 22, 1963, you have the viewpoint and approach which seems the closest to my own; naturally, this is very gratifying and reassuring. As I promised, I am sending you herewith a copy of a letter I received from Western Cartridge Company together with copies of a few letters from my "harassment file." Not a single reply!

Please let me hear from you as soon as you can manage. I would like very much to know your initial reaction to the assassination and your activities and contacts from that time onwards. I wonder if we reached the same destination by similar or divergent roads?

I looked at the Zapruder ~~sings~~ frames as you suggested and I think I do see what might be a bullet hole starting in frame 212. A terrific find, if it can be proven! Needless to say, I am looking forward with intense interest to the enlargement of the photograph we discussed, and will be glad to pay the costs. I know that we are going to be good friends and colleagues, whether we meet in Dallas in July or in New York in October. Looking forward to hearing from you, with genuine pleasure,

Sincerely yours,

Sylvia Meagher
