

DL 100-10461

RPG:sl

1

Under date of December 9, 1963, the FBI Laboratory advised as follows concerning a photographic examination requested by the Dallas Office under date of November 26, 1963:

Specimens received November 25, 1963

Q104 One 50' roll of 8mm Kodachrome movie film with container bearing customer's name "Robert Hughes" bearing exposures of the Texas School Book Depository Building from which assassin fired the gun killing President John F. Kennedy, November 22, 1963

Result of examination:

There are no images in any of the exposures of Q104 which show the corner window of the sixth floor of the Texas School Book Depository Building from which the assassin's gun was fired that can be interpreted as the form of an individual. The forms recorded in this window can be interpreted as in the same general shapes of boxes, found at and just behind the window in question.
