Dear Ken,

Any news yet on Forman's paper from the National Review?
Please do let me know as soon as you hear anything. If they
turn it down, there are a few more possibilities that I can try.
There is even a slight possibility (I hardly dare mention it, and
please regard it as confidential) that The Minority of One may
resume.

In going over some old records, I discovered that the
Liebeler paper on Oswald was presented to the American Psychiatric
Association, in 1965. I know one person who does have a copy and
will try to borrow and xerox it.

With all my good wishes for the New Year,

Sincerely yours,

Sylvia Meagher
