New Orleans, La.

Dear Mr. Garrison,

Press reports indicate that FBI agent Warren de Brueys has been asked to appear before the Grand Jury. Please look at the attached article (an excerpt from a chapter in my forthcoming book), particularly the marked passages dealing with de Brueys and his "investigation" of allegations suggesting the existence of a conspiracy to assassinate the President. I consider this of great potential importance and certainly if de Brueys is to be questioned, his explanation of the manner in which this allegation was handled on the morning after the assassination may be of considerable relevance.

With kind regards,

Yours sincerely,
