QUESTION 5: The attached document dated October 11, 1963 and labeled "Exhibit C" was apparently at one time accompanied by another one-page document containing "SECRET" information. Will you please furnish us a copy of this other document?

ANSWER: This document was at one time accompanied by a one-page message from the CIA. It is the same message that is referred to by the Commission in question No. 16 and copies have been previously furnished to the Commission. As Exhibit C indicates, the copy in Oswald's passport file was accidentally destroyed on November 23, 1963, while it was being thermofaxed. We are enclosing another copy of this message.
