

MAXWELL GEISMAR

WINFIELD, HARRISON, N. Y.

July 14 69

Dear Sylvia,

I have been a bit concerned not ~~to~~ hearing from you-- it is so good to have your warm & touching note arrive here today.

I am delighted to hear the news about your meeting with Howard Gotlieb: isn't he a good one, and a good friend too, and a very understanding, subtle kind of man, with humor. I rate him tops. And they are developing a good "left" collection up there, among other things, not so much left, really, as "controversial," and that is where you belong, <sup>?</sup> -  
(along with me).

I am concerned somehow with the ~~safety~~ safety of some of your papers: robbery would not surprise me, and wonder if you couldn't put rare documents on "leave" with Boston for safekeeping, as I do with

manuscripts? But only if you like.

Before I forget, Ralph Schoenman of the Bertrand Russell foundation in the US is starting a new mag called Socialist America, which might be a good place for any of your contributions on the Assassination...he is much involved with this, and I am sure would welcome you. Address is BR Foundation, 156 Fifth Ave, NYC if you want to contact him. I hear rumors, etc, about his behavior, too, but he is personally very pleasant, the magazine may provide a good forum...  
--No, but, it seems to me he had just seen you recently, so that you must know all this? Forgive!

I hear nothing now about any more information from any source, and wonder if you have any? Pean Jones seems to have collapsed, too.  
--If you see Howard again, give my love, & tell him to drop me a line when he can...I am on the last lap of Mark Twain and he is being too tactful....

Best,

Love
