

MAXWELL GEISMAR

WINFIELD. HARRISON, N. Y.

April 7 69

Dear Sylvia,

Have heard nothing from you too long, and theefefore have no ideas as to what is really happening in the Case, aprt from my personal concern.

And before I ~~co~~ forget, just to remind you that if you decide to put any mss, material, letters for safety or posterity, the Boston University is still open, I am sure, and ~~wel~~ *would* love to have you up there.

Now please tell me after the fact what happened, what was the real meaning of the Garrison? You were right of course, but why? Was he reached, or a double agent or just an adventurer? Did you see the mag WIN presentation of the case he mighthave had? or were they fooled too? He was hovering right around something? death of Ferrie? So, dear Sylvia, please tell me, since I dont know without you...over

What is your news otherwise? and a Happy Easter if possible; things have been so down with us here (not seriously: I got a bad leg and was housed, our maid got the flu and then worse complications until she is in the Hospital with serious stomach trouble; my wife has been holding up everything all by herself, and is exhausted)--so now Easter seems pretty good as we haul ourselves out of this pit.

WHERE is the Maestro? I have heard nothing in weeks...I heard of the little contretemps when he arrived here, and was just happy it was you he picked on this time, not me... Then a long, long evening on his love affair, his conflicts about family, about Minority, about Israel: he was possessed & demonic and hysterical too....he promised to phone me, and that was the end: I imagine he is in Israel? I only hope tht Eldridge Cleaver is there also; that would be a real scoop.....meanwhile do please write me, lest I start worrying about you, dear Sylvia.

all our best love,
