FBI Summary Report of 12/9/63, p. 6 on order from Archives  
CD 1

A latent palm print developed on the same paper was identified as being identical with the right palm print of Oswald. (Exhibit 6)

Mr. Frazier, after viewing the long brown paper bag found on the sixth floor of the Texas School Book Depository Building, could not definitely state whether the bag was the one observed by him in Oswald's possession on the morning of November 22, 1963. Mr. Frazier's sister, Mrs. Linnie May Randle, examined the bag and advised that it could have been the long paper bag she saw Oswald place in her brother's car on that morning as they departed for work.

In addition to having been seen by Mr. Frazier entering the building with a brown paper package the morning of the assassination, Oswald was seen in the building later that morning by several fellow employees. Between 11:30 and 12:00 noon, Oswald was observed on the fifth floor by three employees. During this period, he requested one of the employees, Charles D. Givens, who was descending in the elevator, to close the elevator gates when he got off so he, Oswald, could summon the elevator to the sixth floor.
