

On 11/28/63, a woman identifying herself as Mrs. TONY HENDERSON telephonically contacted the Dallas Office. She advised she works for a firm known as Miller and Randazzo with offices on the third floor of the building at 501 Elm Street. She resides at 1434 Prairie Creek in the Pleasant Grove area of Dallas.

She stated that prior to the Presidential Motorcade passing the corner of Elm and Houston Streets, she had been down in the street with other persons from the building. She stated that she had been out in the street itself off the curb in an attempt to see better and that as she waited for the Motorcade to approach, she had glanced up and behind her and had seen people at the windows in her own building and had seen people also at open windows in the building of the Texas Book Depository. She stated that she had noticed quite a number of people at the windows on the third floor of the Texas Book Depository building and that it had not occurred to her until yesterday that she had seen two men standing in what she was certain was the corner window facing Elm Street on the sixth floor of the Texas Book Building. She stated she now recalls that she thought at the time that the two men standing there would have a bird's-eye view of the entire scene. She stated also that the thought occurred to her that the men were not standing out actually prominent in the window. She said she had wondered why they were standing back a little. She stated that she was certain one of the men had on a white shirt and she thought the other man, who was somewhat shorter, was wearing a blue shirt, or at least it was a dark shirt.

When queried as to why she could see into the sixth floor window when she was standing east of the building, she stated she had been standing far enough out in the street that she could easily observe that window.

Mrs. HENDERSON advised that small items were coming back to her such as when the second shot was fired she saw what she thought was paper flying out of the Presidential limousine and she now realizes it must have been flesh or bone.

LEAD

Contact Mrs. TONY HENDERSON at her residence or at her office and interview for any additional information she may be able to recall and to determine if she spoke of seeing these two men to any other individuals or if she knows of any other individuals who might have observed them.
