

David Belin on Meet the Press NBC-TV Sunday 2/4/79

Jim Harts - Bob Kerr - Hardner - O'Leary - Lindsay

(Kerr) No, HCA did not change his mind. It is deal closing. Overwhelming record is, no second gunman.

Yes, WC did examine testing re shots from JFK but 3 shells rifle CE 399 LHO's rifle.

No one seen on JFK. No shells found there. All wounds from behind. Why only one shot from JFK? ~~And no one~~

(Hardner) Major fallacies in entire sequence of shots per HCA. Tried repeatedly to testify. Could shoot holes in their acoustical findings. If placed in context, could not happen way HCA says.

(O'Leary) Why change his mind re need new investigation? Because discovered CIA vs Castro & held from WC. Also to show how Prud'homme group assassin critic had misled the country by demagoguery. If knew in 1964 what he knows now, would still have concluded LHO alone.

(Lindsay) Why be resisting conspiracy so firmly? Single-bullet grew out of his attempt find + + shooters. Might be conspiracy in sense people who worked @ LHO, tho knows of no such evidence. But no second gunman. Why does he reject acoustical evidence out of hand? Wanted testify in public. HCA did not take best at what LHO saw from 6 fl windows. HCA say frame 195 for JFK - gov C photo. But 186-210 no clear view because oak tree. Either type is wrong, or 3rd & 4th shots only echoes, not shots.
