Dear Miss Meagher:

We have looked over the sample pages of your subject index to the Warren Report. Our initial reaction is that the index would be valuable to other research workers in this field and should be reproduced for wider distribution.

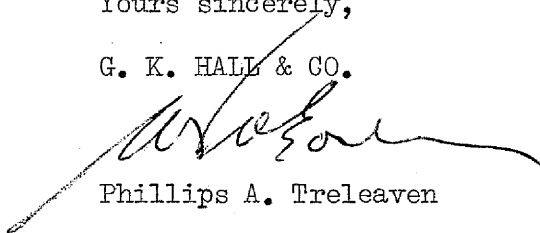

Unfortunately, however, we do not think that this index fits in closely enough with our general publishing program. We are geared to the production and sale of substantially larger publications and except in very special circumstances do not attempt to handle manuscripts of this size. This is not meant as a criticism of your work, but merely as a comment on the limits of our sales organization.

We might suggest that you look into the possibility of the GPO picking up your index as a companion to the Warren Report. This would seem the most logical channel.

Thank you for writing to us. We are returning your material and hope that you will be successful in finding a publication outlet.

Yours sincerely,

G. K. HALL & CO.
