

Telephone Call from Jones Harris 8/20/66 4 pm

Penn Jones back from Mexico; JH abusive toward him, for failure to review or mention INQUEST in the M.Mirror; and excuse by Penn that he is pushing his own book.

But JH learned, from Penn (?), that Bowers was seen going 50 mph on the right side of the road etc. normal in all respects. Theory is that he might have had a heart attack while driving. Medical history not known. Body cremated (no autopsy).

Kenneth Galbraith will make a VERY anti-LBJ speech in the near future.

Manchester book is a savage attack on LBJ, though it supports the WR. Kennedys are not wholly ~~in~~ pleased with the final ms. Thinks publisher is Harpers.

Manchester told Richard Rovere that he felt <sup>when he was in Dallas</sup> that more than just Oswald was involved and that it upset him extremely.

Liebeler will make public demand for the autopsy photos early next week on Channel 13 (JH to let me know just when).

Bwight Macdonald will demand the photos also in the New Yorker.

Latest information on the autopsy photos is that Willens was shown one photo for a second, by a Treasury agent who put it back into an envelope immediately. Apparently RFK okayed making available to the WC the xrays and photos but said he did not have them. Although RFK said okay, Warren said NO.
