Dear Bill:

I know that the FBI wants the public to send in facts rather than suggestions. Nevertheless, here is a minute aspect of the Oswald case which comes to mind as a possible subject of investigation:

Did the firm from which Oswald, using a fake name, ordered the rifle and telescopic sight also sell mailing lists containing the names of such purchasers? If the firm did sell such mailing lists is there any record of who purchased them? Individuals or organizations--- I know I need not spell it out any further.

Probably all this has been checked by your people but since I am not certain I cannot refrain from calling it to your attention for whatever action you think it deserves.

REC-5

Please don't feel you have to waste any of your valuable time even acknowledging this.

All best regards,

Yours,

50
