ASINGTON, Dec. 20—At the moment the hottest thing in the Democratic party is Sen. Robert F. Kennedy of New York, the brother of the slain President, but his halo is tipping.

Disclosures of the hand he played in wire tapping and the exposure of his snobbery may send his popularity plunging for below that of President Johnson and leave him low man of the 1933 political totem pole.

Bobby came off second best in a "bugging" row with J. Edgar Hoover, director of the Federal Bureau of Investigation. Hoover declared it was "absolutely inconceivable" that Bobby, his former boss as attorney general under President Kennedy, would deny knowledge of "bugging" in criminal cases.

Moover produced memos from Kennedy's chief witness, Courancy A. Zvans, a

had approved "microphonic surveillance." The FBI has a file do not ceasor and control,
bulging with Kennedy approvals of wire taps which could be
disclosed one a day, for months.

TOT ONLY DID KENNEDY approve FM wire taps, he approved "bugging" by the treasury department on Feb. 16, 1331. Furthermore, he set up a special wire tap group under his own command. This group consisted of three men. One was given a job in the justice department, a second was placed on the Unite House payroll, and a third on the payroll of the immigration and naturalization service.

If Dobby tapped the wires of James Hoffg, teamster boss, whom he made his No. 1 target, these men would know it. It would be interesting to hear what they might say if they were summoned before a grand jury and asked to testify under oath.

Some friends of Nolla have offered a reward of \$100,000 to mayone producing evidence of wire tapping in connection with John's trial in Nashville. William Leab, president and publisher of the Manchester IN. II.] Union Leader, has offered another \$100,000.

The sum is a tempting one, but whether any of the principles would care to enswer the \$200,000 question is doubtful, as reially if there were whre topping of Hoffa. If it comes to matching money, few can compete with the Kennedy family,

Figuily Is Worried Over Disclosures ==

TYPE LABEL OF SNOZBERY could be even more damaging to a man who is dreaming of the White House. The Kennedy family is involved in a hassle with its hand-picked author, William Manchester, over an account of President Kennedy's death. His vidow, Mrs. Jacqueline Kennedy, who is being coached by Bobby, has repudiated the book as "both tasteless and distorted."

What the family is worried about is the disclosure of some confidences. These include a reference to President Johnson as "a country bumpkin" and indignation over the fact that Johnson boarded the Presidential plane after the assassination for the sad journey home, altho he was then President and the plane was his rather than the widow's or the Kennedy family's.

If the book should reveal the Kennedys, including Eobby, as arrogant and snobbish, it would not help Robby's image and it is little wonder, then, that the family is exerting every effort to suppress any book on the assassination that the Kennedys do not censor and control.
