Remylet and letterhead memorandum 12/11/63.

Attached is a copy of a bus passenger list for a bus company called Transportes Frontera covering a trip made by bus No. 340 of this company from Mexico City to Laredo, Texas, on 10/2-3/63.

It is noted that the name "OSWALD" is listed in the space for seat No. 4 with a destination of "Lared." As was pointed out in mylet of reference, extensive investigation at the offices of the bus company in Monterrey failed to disclose a ticket which could have been used for OSWALD on this trip. Interviews of the two drivers of the bus on this particular trip have also been negative.

Because of the failure to discover a ticket for OSWALD and the fact that there possibly could be some variation in the writing of this name as compared with the writing of other names, it is requested that the following handwriting examination be made:

1. It is requested that the handwriting of the name "OSWALD" and "Lared" be compared with the known handwriting of the subject to determine whether the name was written by him.
2. That the handwriting also be compared with the handwriting of the other names appearing on the list in an effort to determine whether the name "OSWALD" was written by the same person entering some or all of the other names appearing on the list.
