Dear Sylvia,

I understand that you are in touch with Epstein. You might be interested in a letter we got from Knebel. David Welsh & I wrote to Look about the Hudkins thing, enclosing a copy of SS767. They passed this on to Knebel, who wrote back that "apparently Hudkins misstated the facts when he talked to me," but this did not change the fundamental thesis of the article, that Epstein's book is deceptive. "The Warren Commission had plenty of shortcomings, but the unbiased, objective book on the findings is yet to be written." Knebel apparently really believes that the Rowland matter is important !

Since I found myself looking up documents in the Archives which were in the 26 volumes, I have prepared a superficial index of the CD's and CE's in the last 5 volumes. I am enclosing the cover and a sample page. If you think this would be any use to you, I would be glad to send the whole index (20 pp).

Do you have any strong feelings on Goodwin's proposal for a Congressionally-supported new investigation? My impression was that he didn't really mean it, but I think it would be nice if we could press the issue. Is there anything we can do, beyond writing our congressmen? I'm sure than Vince believes that Bobby Kennedy is behind it; if this is true, we might as well sit back and watch the fun.

Sincerely,  
*Paul*
