Dear Paul,

I received your memorandum on CIA activities and the Warren Commission investigation last night and I read it with interest and admiration. You have organized the material cogently and succinctly and presented it in a scholarly manner. I hope that it will impress the bodies now engaged in investigating the CIA and that your perceptive suggestions will be followed up.

I will not, of course, divulge the material that you flagged as confidential.

As to copies of Accessories, the book has been out of print for a very long time now. I was told about a year ago that copies were available from an out-of-print dealer, Q. M. Dabney Co., Box 31061-A, Washington, D.C. 20031. But I do not know if Dabney still has copies at this time. If not, I am sorry to say that I simply do not know what to suggest. Please give my best regards to Peter Dale Scott and tell him that I am really regretful that I cannot be helpful about copies of the book.

Kind regards.

Yours sincerely,
