Dear Sylvia,

Thanks for your note of the 28th. I've put a plug for your indexes in the newsletter (enclosed), and sent the Scarecrow pamphlet on to Russ. (His address, more or less ~~px~~ permanent, is 392 E. Blythedale Ave., Mill Valley, CA 94941.) Peter will make sure our library knows about it.

I hear that you had a relatively satisfactory telephone conversation with Lifton. When his book comes out, some ~~xxxx~~ people are going to dump on him because they don't think he has anything, and some will dump on him for having something and not having told us all years ago. I personally am not convinced that he's onto everything he thinks he's found, but I am persuaded that he is onto something important.

With best regards,

*Paul*
