Mrs. Sylvia Meagher
302 West 12th Street
New York 10014

Dear Mrs. Meagher,

As you will see by the enclosed announcement, I am starting a newsletter dedicated to the continuing fight for the truth about the JFK assassination and related murders.

In this regard, I would be very much obliged if you could contribute an occasional news item, a significant clipping from the local press or a bit of information culled from private sources.

I would also be most interested to receive from you an account of your own experiences in connection with the publication of "Accessories After the Fact", signed or unsigned, as you prefer. I presume that you have also been up against the wall of apathy and incredulity we have all had to face and would be very happy to use a story on that subject in "Truth Letter."

If I can count on you as a more or less regular contributor of news items and bits of information, I shall be only too happy to give you a free subscription to "Truth Letter" (I'm afraid this is the only kind of compensation I can offer at this time).

I hope your fine book has been successful and will continue to be.

With all good wishes,

Sincerely yours,
