

THE KENNEDY MURDER FRAUD

An Historical Indictment Before the High Court of Public Opinion

by JOACHIM JOESTEN

The assassination of President John F. Kennedy was the perfect crime because of a built-in guarantee of impunity for all those involved: instigators, perpetrators, accomplices before and after the fact. It could not conceivably fail for two solid reasons: One, because the mastermind of the plot, Vice President Lyndon B. Johnson, would automatically become Chief Executive the moment the President was dead; and, two, because every one of America's so-called law-enforcement agencies was implicated in the conspiracy at a high level.

Thus, the officially sponsored myth of Lee Harvey Oswald, lone assassin of President Kennedy, will go down in History as the one outstanding example of how to fool all the people all the time. But not forever. Already wide breaches have been opened in the wall of official deception. The end of the usurping regime - which will certainly come in 1968, if not earlier - will also spell the end of the Kennedy Murder Fraud. Two years from now, the whole world will know the monstrous truth about what really happened at Dallas on November 22, 1963, and in subsequent related events. Readers of the present work will have learned the truth in every important detail long before.

The present work names the names and assesses the responsibilities of all those in high and low places who planned the assassination, who carried it out or who contributed to the elaborate coverup that was to follow. Key men in the conspiracy were Lyndon B. Johnson and his crooked protégé, Bobby Baker (now due for a farcical trial); H.L. Hunt, richest and greediest of the Dallas oil magnates; Robert McNamara, Chief Hawk; Richard Helms, director of the CIA; James Rowley, Chief of the Secret Service; Jesse E. Curry, Dallas Police Chief; Henry Wade, District Attorney; Earle Cabell, former Mayor of Dallas, and his brother, General Charles P. Cabell, former deputy director of the CIA.

These men (and others) set up the Dealey Plaza ambush and recruited the gunmen who killed the President in a military-style crossfire - with dum-dum bullets. They also organized the concomitant frameup of Oswald, chosen by the CIA leaders among the ranks of its "expendables", to serve as preordained scapegoat in the gigantic coverup operation.

J. Edgar Hoover, Director of the FBI, was not an original participant in the conspiracy, but he became an immediate accessory after the fact. Fully informed of everything that had happened, Hoover became the chief architect of the coverup - at a price. He has been blackmailing Johnson ever since (as did Bobby Baker).

Another prominent accomplice after the fact was Kenneth O'Donnell, a trusted Kennedy aide who conducted the outrageous kidnaping of the President's body from the jurisdiction of the lawful Dallas authorities, thus laying the groundwork for the Autopsy Fraud that was staged in Washington.

Chief Justice Earl Warren and the other members of the Commission were practically bulldozed by Johnson into the thankless job of covering up for the biggest and most shameful fraud in modern history. They were forced to sacrifice their good names on the altar of the Reason of State.

Johnson took it upon himself personally to lure Kennedy into the death trap his Texas friends and the Dallas Police had set up for the President. Kennedy didn't want to make that trip (Moreover, he had been forewarned by Connally), but Johnson virtually dragged him along under false pretenses, Johnson was not only prompted by ambition, he was in desperate straits at the time. He just had to become President in order to prevent the Bobby Baker scandal from exploding into his face. For Kennedy knew all about LBJ's involvement in that sordid affair, not only on the financial, but also on the so-called "moral" side of it. And he wasn't going to have a man so tainted as his running-mate again in 1964.

Thus the decisive element in the assassination plot was that fatal automatism of the American political system which not only elevates the Vice President to the top post the moment the Chief Executive dies, but also virtually assures him of re-election. Johnson knew only too well that he could never have been elected president, even before the Bobby Baker scandal threatened to eliminate him completely from the American political scene. But he also knew that once installed in the White House, by fair means or foul, he could easily win re-election. This part of the plot, then, also worked to perfection. It won't work again in 1968, though.

The topflight marksmen recruited by the conspirators to kill the President were Charles Whitman (later to be known as the so-called "mad killer" of Austin); The Dallas Policeman and Bircher J.D. Tippit; and Larry Crafard, Ruby's handyman who also performed as Oswald's double (The False Oswald). They are all dead, or will be soon, liquidated by their own taskmasters as is the inexorable rule of political conspiracies.

Ruby was both a tool and a victim of the plotters. He was "double-crossed" by them in gangland style. Ruby, in mid-September 1963, had hired Larry Crafard to kill Governor Connally on behalf of "the boys in Chicago", because the Governor was successfully resisting Mafia attempts to take over Dallas. This assassination plan, which did not involve Kennedy, became known to the Dallas police chiefs who from that moment on were able to blackmail Ruby at will. As it happened, the plot against the President was taking shape at that very moment. So, with the help of the Dallas authorities, Johnson and his gang took the game out of Ruby's hands and forced his gunmen to shift their target from Connally to the President. That's why Ruby was so astonished, and so terrified, when he found out what his plot had led to. And then the police forced him to kill Oswald on pain of revealing his own initiative in the matter.

The Kennedy assassination highlights the grave constitutional and moral crisis which has plagued the United States ever since the FBI, the CIA and the military establishment virtually took over our democratic institutions. To use the words of John J. McCloy, this country has truly become a "banana republic, where a government can be changed by conspiracy". Worse still, there has been in the United States an acquiescence of public opinion in the Crime of the Century that would not have been possible in bananaland.

That a book exposing all this with brutal frankness could not possibly be brought out at this stage by a commercial publisher stands to reason. Therefore, "The Kennedy Murder Fraud" will be published by the author himself in a limited, multigraphed edition which makes necessary a comparatively high price. To Men It May Concern: Several copies of the manuscript, along with the supporting evidence, have been deposited in safe places in various countries. Arrangements have been made for publication by others should the author be unable to do so.

A shocking eye-opener for thoughtful people:
