Dear Mr. Joesten,

As you rightly guess, I would be too busy to undertake distribution of your multigraphed English reports but only the other day I had a letter from a young man in California who is organizing a citizens' committee of inquiry with the purpose of (1) pressuring for a new investigation, and (2) distributing literature critical of the Warren Report. Perhaps he might be helpful to you. Here is his name:

Mr. Steven J. Burton  
4829 Morella Avenue  
North Hollywood, California 91607

I will certainly look forward to reading your reports, even if I cannot help personally with the distribution. One of the reasons that my time will be extremely limited for the next nine months at least is that my book on the Warren Report has been accepted for publication. It is rather a massive manuscript, which I must now bring up to date by adding the many events which have occurred while it was at the publisher for consideration. This will mean a great deal of labor under strong pressure of time, and other activities will have to be put aside for the moment. With luck, the book should be out next autumn; the publisher is Bobbs-Merrill.

With all good wishes to you for the New Year, and for the success of our mutual cause, to which so many good minds and decent hearts have made their immense contributions, as yours, one of the first of the books, and your books to come.

With friendship,
