

25 May 1966

Dear L.A. (and Penn, too),

Thanks a lot for your letter of the 21st. I am glad to have news from you. The May 19th issue of MM arrived in the same mail with the "last installment." I was quite fascinated with some of the items. Who was the stripper who had an auto accident near Lemmon and Inwood Road? Is the story about the hot-line ("Now get that phone back on Miss Gandy's desk") absolutely reliable? I think Turner left the FBI around 1960 or so, and I doubt if the agents would take the risk of fraternizing with him and telling him such damning information--but I may be wrong. I am curious too about the Ray Acker item. Can you tell me anything more about that?

I am in touch with Ramparts from time to time; yes, they really seem to be going full steam ahead with the case. I am glad you exchanged information with them.

A lot of activity is taking place. Watch for publicity on the case--especially in LOOK at the end of June. An article of mine is in the June issue of The Minority of One. And a highly important book is due out in some two weeks or so, Inquest by Edward Jay Epstein, Viking Press. I gather you have already seen Vincent Salandria's article, quoting the FBI report (saying that the bullet did not exit from the body), in the April issue of Minority. An American edition of Leo Sauvage's book L'Affaire Oswald (published in France early 1965) is due out in October (World Publishers) and of course you know that Mark Lane's book will be published by Holt Rinehart etc. in September.

My plans for the summer are very fluid. I don't know whether or not I will get to Dallas or anywhere else. If I do, I will surely look forward to seeing you both and Shirley Martin. With warm good wishes,

*Sylvia*
