

140 East 72 

10 November 1966

Dear Representative Kupferman,

It was a pleasure to see you again last night and to offer you my selfish congratulations on your reelection as Congressman for my district. It was no hollow formality, I assure you, but an expression of my real gratification that you will be in a position to pursue your joint bill.

The forensic pathologist whom I mentioned to you as qualified to evaluate the autopsy x-rays and photographs, and who is informed about and highly interested in the subject, is Dr. Cyril H. Wecht of Pittsburgh, Pa. Dr. Wecht is Research Professor of Law and Director of the Institute of Forensic Sciences at Duquesne University School of Law; and Chief Deputy Coroner and Chief Forensic Pathologist of Allegheny County. I believe that he is also the Director of the Pittsburgh Institute of Legal Medicine. He is a fellow of the American Academy of Forensic Sciences. And I should add that he is forthright, easy to talk to, and unimpressed by his own honors.

Dr. Wecht is coming to New York City on December 7th for about five days. Do you think that the three of us could get together sometime during his visit and discuss the request to examine the autopsy photographs and related matters? If you can spare some time, we might meet at my apartment, where the 26 volumes and my own "archives" will be handy; or anywhere at your convenience.

Yours sincerely,

Sylvia Meagher
