"... an extremely thorough analysis, providing a most formidable reinforcement for the view that the investigation must be reopened... I doubt if anyone—even the members of the Warren Commission—knows the... hearings as Sylvia Meagher does."

— **CONOR CRUISE O'BRIEN**

"... I imagine it will continue to be the book of major reference after all the new volumes continue to appear."

— **MAXWELL GEISMAR**

"... the most exhaustive and objective evaluation of the Warren Report yet... more than a mere compendium of errors; it is a definitive analysis... Other books have attempted to catalog errors... but they cannot compare with Mrs. Meagher's... In a sense it completes the Warren Report by supplying the contradictory evidence the Commission ignored or missed."
