Excerpt

Lane.....I did a program...I was doing this show, I suppose you never had any problems with the FBI, is that right? I've never seen any reports which indicated---

Gray.....I am in the FBI Warren Commission Report, I've been told by Sylvia Meagher--

Lane.....What did they get you for?

Gray.....No, they didn't get me for anything. I got a couple of kooky phone calls about, someone had called me to say that they really knew who, what, when and where, and I contacted the FBI, because I didn't want to get caught in the crossfire, this was at 2 o'clock in the morning, on a couple of successive mornings, and they subsequently traced the call, and that's what this was all about, and I got--I think I rated a footnote in the Warren Commission Report.
