Dear Mrs. Meagher:

I wanted to write and tell you how impressed I was with your book, Accessories After the Fact. For some time now I have been reading and studying books and articles— both defenses and criticisms— about the Warren Commission Report, and I am convinced that your book is the most complete and logical of all of them.

Accessories After the Fact convinced me beyond the shadow of a doubt that the conclusions of the Warren Commission are false.

I am an English major at Mary Washington College, the womens' division of the University of Virginia, and I hope some day to make a more thorough study of President Kennedy's assassination. Meanwhile, is there anything that a college student can do to make somebody do something about the situation? The citizens of the United States deserve to know the truth about John Kennedy's death, and the Warren Commission certainly has not given us the truth. The Warren Report is so ridiculous that it would be funny, if it didn't concern such a serious subject. Another investigation of the assassination is absolutely necessary.

Thank you for writing Accessories After the Fact.

Sincerely yours,

Jan Reynolds
