Dear Gary,

In my telephone call with you this morning, it has become obvious that one thing we had not done yet was to send Ray a copy of the covering memo on the E film research. Tonight such a item was typed up, dated March 15th, and you will find it enclosed.

Also enclosed is a three page covering letter dated March 16th from Fred to Ray.

This material was mailed to Ray special delivery Sunday night and he should have received it sometime on Monday.

The packet consisting of the memo plus the covering letter are "basic source materials" on this whole affair with Ray and we've had extra copies run off to be sent to anybody who you think should have become involved in this matter.

Vince has been sent a letter and a memo at the same time this was mailed to you, and it's important that he use these materials and make reference to this memo in any discussion that he may have with Ray over the phone. (Specifically, to avoid confusion, all references to the earlier memo - February 16th - should now be ignored.)

This is the one you should use when speaking to Ray, this is the one he has, this is the one we are prepared to send if you want more copies.

By the time you and Vince receive this material, Ray will have had time to direct his and so the time has now come to make your phone calls, get Garrison to do his calling, etc.

Sincerely,

DAVID LIFTON
