Dear Mrs. Meagher,

I'd like to begin by reiterating what a pleasure it was to meet you when you were here in Los Angeles.

The Committee is still growing. Here, our membership continues to increase regularly, and else where, Committees are being formed in San Francisco, Cincinnati, Chicago, Philadelphia, and elsewhere. We just wrote to Rep. Kupferman in the hope that he will be able to help us see a new investigation. Has anything happened on the subject of your seeing the autopsy photos, etc.? When I spoke to him, his support seemed contingent on the outcome of such a viewing. Have you spoken to him on the subject?

I'm sure that Maggie has told you about the Lane-Liebeler debate. It was really something. In the press conference that preceded the debate, Liebeler said that he had conclusive evidence that proves that no shots came from the Grassy Knoll. He said that he would present it in the debate, but the only thing he brought out that was new was a photo that is supposed to duplicate Ex. #133A, the Life Photo. It was immediately apparent, especially to Ray, that it did no such thing. It was taken at Larry Schiller's house, on a driveway that slopes sidewise, with a turned head so that none of the shadows legitimately match the Life Photo. I'm sure that Schiller, who is a good photographer, whatever else he may be, knew that it was fraudelently represented by Liebeler. They're really something.

We're really anxious for your book to come out. Maggie keeps telling us how it will be the best. Has anything else happened? Please keep in touch.

Yours truly,
