

THE KENNEDY ASSASSINATION TRUTH COMMITTEE

P.O. Box 38524
Los Angeles, California 90038

February 27, 1968

Dear Mr. Garrison and Critics:

As duly elected Chairman of The Kennedy Assassination Truth Committee, I am writing in behalf of the Committee in order to disassociate this Committee from Mr. Donald Freed's letter of January 29, 1968.

Acting independently, Mr. Freed mailed these letters without Committee approval.

Following is the policy statement adopted by the full Committee:

In the interest of Truth, we demand to know conclusively who killed President Kennedy.

We speak clearly and without hate in order to create a community of consciousness that will demand a new investigation of all facts concerning the assassination of our President.

The solution must spring from the people.

We will use all means of communication to express our concern.

We accept the obligation of concerned citizens to seek the Truth, and we will not be silenced by fear or apathy.

We welcome your comments and suggestions since we are all working toward a common goal.

Sincerely,

Louis J. Rapaculo Jr.
