Dear Ray:

Enclosed please find check drawn in the sum of \$5.00, and please accept my thanks for the material. I am still not able to accept 237. My April article in The Minority of One merely suggests 292 as a speculation. I still feel that the hit occurred around 292. But my mind is open on this. Give me other than the displacement of the shoulder in the photographic evidence area, and I will keep listening. But frankly, I and others who have studied the matter here did not see much to the 237 proposition.

Maybe at a symposium, we can discuss the matter in greater detail and maybe come to some agreement on the matter. For me, Ray, it is not settled.

Regards,

Vince
