Los Angeles, Calif.

Dear Dave,

The enclosed ~~is~~ portion of a letter to Harold Weisberg is self explanatory. When the question of 314-315 has arisen in the past, you have readily admitted to me, verbally, that the discovery of the transposition was mine; and you have disclaimed responsibility for others getting the wrong impression. Since I accept your statement that you have no wish to be falsely credited with my discovery, I am asking that you send me a brief note stating the facts of the matter.

I would appreciate it if you could take care of this at your earliest convenience.

Sincerely,

Ray
