

Friday night 14 January 1966

Dear Shirley,

A terrific new development--I received a letter from an editor of RAMPARTS tonight saying that they had heard about my work on the WR and were in contact with others doing similar work because the magazine "in future issues will become a forum for the investigative work now being done. We plan to devote part of each issue to the subject, beginning with our April number--indefinitely, until the Warren Commission is reopened." They go on to invite me to send anything I have written even if it is still in raw state, and also mention that maybe at some future time they will try to gather all the researchers in one place for a conference.

I believe this is potentially the most important break since the WR was unveiled. Another development--Sauvage tells me that the next "letters to editor" space in the New Leader will be devoted to his articles, pro and con, including my letter in support of his position and his reply to the pro-WR readers. Marguerite Oswald was so happy about the Sauvage articles that she phoned the editors from Texas, apparently plans to contact Sauvage.

I appreciated very much your two letters and copy of letter to Penn, also the 8¢ airmail stamps. I am not really frugal, it is just that I don't know where the nearest post-office is and never seem to have enough stamps, or the right denominations. So I shall not squeal like a panther or pig but accept the stamps with warm thanks (but don't DARE do it again, hear?). I am very sorry to hear that you are bedridden, do take good care of yourself and get well. If you have a two-speed tape, please bear in mind that my recorder does not take the speed at which the Clemmons tape was recorded and use the other speed if possible (sorry to be a pest). Also, before I forget to mention it, did you notice in the Earlene (Earline?) Roberts story (copy enclosed) that Bertha Cheek has become Bertha Iyles? Dozens of male Iyles in the Dallas phonebook, maybe Penn will look around...Another very interesting bit that I reexamined hastily is the business of Oswald picking up Ruby's car after repairs--see Biggio testimony in Volume XV vs General Walker, repeating the "rumor" and refusing to name his sources...maybe we should add Bill Chesher (15H 50) to our list of fatalities??? Another job for Penn.

VERY interesting, the Bill Moyers/telephoners list story. It certainly suggests LHO phoned the White House, how else interpret it? By the way, Long John (an all-night talk jockey on NBC radio, if you've ever heard of him) is fond of retelling as often as possible how he got a phonecall from Oswald in the summer of 1963 offering to appear on a discussion of Castro/Cuba; but that he turned him down because he felt at the time that he had already given Cuba saturation treatment. I don't know if it is true; Long John is not a model of integrity.

I have done a chapter on the jackets, a very complicated subtle and suspicious set of circumstances which leave many questions and doubts hanging in air--particularly, the dry-cleaning number (laundry no.) on the gray zipper jacket, which they never tried to trace, and which seems anomalous in view of R Paine and Marina testimony she did all his laundry including the jacket(s) in RP washing-machine (pending one of her very own, which she has probably now achieved in spades with diamond dials).

Who is Haley? The Brown Brothers? Jaffe? I have neglected all reading except the WR and related stuff, so forgive my ignorance. I hope Thayer Waldo is okay. I didn't know he was in Mexico, wrote to the address he gave when he testified...Shirley, I haven't covered all the points in your two letters but I will postpone the remainder until next time, as I just noticed it is 1.45 am and I'm feeling my 40-plus weight of years (though no worries about the 50s and 60s, when I will probably be more militant, judging by the rate of progression). I hope this will find you much improved, please send your phone number so I can call and say hello. Love (I am sending a carbon copy of this letter to Penn),
