

Dec. 10, 1966

You have heard the news I'm sure that Robert Oswald (Wichita Falls, Texas) after years of silence is planning a book on his brother to explain why Lee killed Kennedy. An Eastern writing team is helping him prepare the manuscript. This is pure you-know-what. Robert O. has been approached by certain government representatives and told to write the book. Nor did Robert stumble on to this remarkable writing team who just volunteered to help him. We are being given a rebuttal by a family member, so that the majority of Americans will sigh and say: "Well, if his brother believes it, then..."

Robert claims that the WR was weak only in so much as it did not properly explain Lee's motives for the Kennedy slaying; this Robert says he will do. Doesn't it promise to be a fabulous book? The name of the writing team who crawled out of the woodwork is Mr. & Mrs. Myrick Lavad
Their address is: New Rochelle, N.Y.

Can you find out anything on their background? I would appreciate it.
Much love, S.
