

Sylvia is the "Fairy" of 2038 (Com. Ex.) the Ferrie of the New Orleans CAP? I think it may be the same, since we have information that Ferrie was in Texas at this time. The narcotics angle is interesting in light of Tippit's possible tie-in on this.  
Love, S.

"... a private detective & the owner of an airplane..."

"... a narcotics addict now out on bail on a sodomy charge in Dallas."

Tulsa World 2/19/67

"... David Wm. Ferrie, part-time private investigator & operator of a local flying service..."

"Fairy said that Oswald had been  
under hypnosis from a mind-  
reading act at Ruby's Carousel."

What is interesting in the above  
is Ferris's immediate tale  
linking Oswald & Ruby. The

mind-reading story is  
ridiculous - but here was  
one of the sources for  
the Oswald-in-the-  
Carousel link.
