

5 November 1979

Dear Penn,

You might wish to inform your readers that I am working on a comprehensive index to the Report, Hearings and Appendices volumes of the House Select Committee on Assassinations, dealing with the assassination of President Kennedy. This will be a subject index, much like the one I did on the Warren Report and the Hearings and Exhibits. In addition, it will include an index to each of the individual volumes. This master index will be published by Scarecrow Press in 1980, with the Subject Index to the Warren Report reprinted in the same volume.

Would you accept a couple of copies of the forthcoming index in exchange for an extension or renewal of my subscription to THE CONTINUING INQUIRY?

With best personal regards to you and please remember me to your dear lady,

Yours sincerely,
