Dear Mr. Eshelman,

I agree with you that the title as stipulated in our contract is too long and in any case it is no longer accurate, since the work will include the earlier Subject Index. We might re-title the work as follows:

MASTER INDEX TO THE JFK ASSASSINATION INVESTIGATIONS

The Reports and Supporting Volumes of the  
House Select Committee on Assassinations  
and the Warren Commission

I would welcome your suggestions or revision, providing that the information reflected in my new title is retained in some form. In due course I will provide an "Explanatory Note" and at some stage we will need to formulate a table of contents. Happily, this is one work that will not need to be indexed!

Yours sincerely,
