U.S.A.

Dear Ms. Meagher:

Paul Hoch has sent me your address with the suggestion that I contact you. As a result of a conversation with Carl Oglesby last month, I'd written Paul about becoming involved in searching and cataloging the 100,000 pp. of FBI files. He suggested that a more pressing task might be to index the HSCA final report, provided the committee does not supply one, and he noted that you've already compiled an index to the five volumes of JFK public hearings.

I'm writing you to find out whether you intend to put together an index to the final report -- if the committee doesn't publish one -- and, if so, to offer what help I can. My time will be relatively open between now and September and again during the spring and summer of next year, that is, if such a project would take that long. During the fall I should be able to draw on the assistance of a few of my students.

I'd also like to obtain a copy of your index to the exhibits in the five volumes. Let me know the cost of xeroxing and postage and I'll forward it immediately. I'll be looking forward to hearing from you.

Most sincerely,

G.L. Owens
