Dear Sylvia -

Here is the hearings witness list from the newsletter.

Blakely has nothing to trade with us. The complete witness contact list of the HSCA would have to be compiled from the HSCA's card index - which is locked within the bowels of Congress for 50 years. He claims he doesn't have it and can't get it.

I haven't sent him your indexes yet, but plan to do so next week when I get around to perusing them. He repeated again that he was grateful to you.

Other lists that you may want to compile include:

- 1- HSCA staff and titles (lawyer, ~~the~~ investigator, etc.)
 - 2- HSCA members and staff liaisons
 - 3- HSCA Consultants (a breakdown of each expert panel with brief bio's, i.e. credentials).
 - 4- Your exhibit list of the enclosed witness list + witnesses mentioned in the footnotes of the report and supplemental volumes.
- None of these is crucial to your subject index, but I doubt if the information will ever be compiled anywhere else.

Talk to you soon -

Jeff
