

5 November 1979

Dear Paul,

Enclosed is a revised index to Volume XI in which I have integrated the names of HSCA members and staff and added a few names and/or citations. I do not think it necessary to make a full circulation of this revision, now that Scarecrow is to publish the over-all index, but a copy should go to Gary Owens and I would like the original and copies returned to me as usual.

Also enclosed is an index to Legislative and Administrative Reform Vol. II, another killer of an index which has little relevance to the Kennedy assassination and which I doubt will be of interest to the people whom you have been supplying with copies of the indexes. Unless you think this index will be useful to someone, please do not circulate it. Please send to me the copy that would normally go to Gary Owens, which I will send on to him with some comments on integrating it into the subject index. Please return the original with one copy to me.

I am delighted to know that your book on the HSCA is now being set in type. Congratulations!

I will soon stop bethering you with these indexing chores. I have only one more volume to do--Legislative and Administrative Reform: Hearings. Gary is doing Volumes III and V of the Hearings, and then that part of the job will be finished. I am extremely grateful for all the help you have given in xeroxing etc. and can promise you one of the first published copies to come off the press.

All the best,
