Sylvia Meagher
Dear Miss Meagher,

I assume you are the woman who has written the book "Accessories After the Fact" dealing with the Kennedy Assassination. If, in fact, you are, then it is of utmost importance to you to contact me as I have rather a complete file on the events of the assassination. This includes approximately 65 hours of tape recordings. Also in my files are transcripts and other chronological listed information. I have communicated with Harold Weisberg and he has written me on several occasions, asking me to please supply him with some of my material I listed partially in one of my letters to him. I have also written W. A. Jim Garrison listing some of my files. My information covers, rather exhaustively I think, all aspects of the assassination from that infamous day up to the present time. As Mr Weisberg said in his second letter to me, "Perhaps someday your complete data and files, will become part of a permanent and truthful Archive of what really happened on Nov. 22, 1963." Please contact me, Miss Meagher on this subject. I will be awaiting your reply. I remain,
Ted Gandolfo - 221 8th Avenue - Jersey City, N.J. (07306)
