DATE II/18/68

Dear Mrs Meagher :

the day after I called you my copy of your excellent book arrived and I've been thoroughly entranced ever since --

I enclose my only effort to date just to indicate that minor efforts are being made also -- of course this was completely eclipsed by the States-Item in New Orleans so now having made one lecture take hold just a little I've convinced Mrs Flora Frame to carry me on another bit to see if this section of the country can be told what has happened -- and of course in the hope more can be done along the lines you advocate: another (wrong word, 'an' is the better term) investigation --

I'll be in NY Sat the 24th and would like to meet you if you have the time -- please indicate yea or nay and I'll give you a buzz, if yea, Friday evening -- reply to Regency Hotel 61 & Park, tks

Dear Mr. Cutler,

I haven't much free time this weekend but if you will ring me Saturday afternoon perhaps we might talk for an hour.

All good wishes,
