Re: Subject Index to the Warren Report
and Hearings and Exhibits

Since the Subject Index went out of print about a year ago, I have received a number of requests to indicate where a copy could somehow be obtained. To my regret, I was not able to make any suggestion other than seeking to consult or copy the Index at a public library or a university library.

I have now come into possession of a microfilm copy of the Index, which I should be willing to lend to anyone who wishes to have copies made. There are approximately 80 pages of microfilm (each reproducing two pages of the published Index), which I am told can be copied at 10¢ a page. I will also provide a list of errata to anyone who wishes to borrow the microfilm.

The microfilm will be mailed upon request, on the understanding that it is returned within one week so as not to delay others who may wish to borrow it.
