Dear Ms. Meagher:

Thank you for your recent letter on the matter of the investigation of the assassination of President Kennedy. To the list of indications of uncertainty you provide in your letter can also be added the Post article suggesting there were three assassins.

Unquestionably taking issue with the Warren Report is becoming a matter of some interest to many. I am confident that should these reports produce any materials that were not considered by the Warren Commission, the Congress or the Executive Branch would take appropriate action to see that the matter were officially reopened.

Again, I appreciate your letter and your concern.

Sincerely,

Charles H. Percy/tmb
United States Senator
