Dear Sylvia -

I've been minding your business again - just wrote the Today people suggesting the topical tie-in of your book with the New Orleans Trial. Surely hope and pray it cracks something loose. It is refreshing to have someone still working at getting the record straight.

Have been wondering if anyone has considered giving the second phase - the Tippett end - the close scrutiny Thompson, et al, gave the first phase. The first reports from Dallas had Oswald actually inside the branch library and, consequently, within one block of Ruby's apt.

Is anyone still working?

Sincerely,  
Margaret
