Dear Mrs. Meagher,

For the past few years I have been interested in the Assassination of President Kennedy. I have read many book about the assassination, But your book and Professer Thompsons book really told me everything I wanted to know. I am writing all the facts about the Assassination for school in a Ten-Page report, and your being one of the Seclars in the world who know almost every little detail on the Assassination, you could recomend some good serces. As you said all throughtout your book, I also belivemthat the Warren Commission did NOT have a complete investigation, and I strongly belive that there was a SECOND gunman firing from the Grassy Knoll. In the future I hope to have A long conversation with you on the telephone, about the Assassination. In your return letter please indicate the best time to call.

Sincerely
